

Wirelessly play a world of music in any room.

Room-filling sound. Never-ending music. iPhone™ control. And endless expandability. That's the beauty and brilliance of the Sonos® ZonePlayer™ S5, the all-in-one wireless music system you control with your iPhone. Simply plug it in wherever you want music to experience crystal-clear, all-digital sound. And since the S5 is Internet connected, when it comes to music, the sky's the limit. When you're ready to play more music in more rooms, just add S5s effortlessly...and wirelessly.

Meet the entire Sonos family.

They all work together wirelessly and seamlessly for the ultimate multi-room music experience.

One ZonePlayer™ or ZoneBridge™ must be connected to your router, then all the rest work wirelessly.

ZonePlayer S5 The all-in-one wireless music system

Superior sound meets unlimited music.

The S5 delivers crystal-clear, room-filling sound that rivals much larger, more complicated audio equipment. Plus, the all-digital sound architecture provides precise sound reproduction, just as the artist intended. With 5 integrated speakers and 5 dedicated digital amplifiers, the S5 will make your music sound amazing.

With Sonos you can listen to way more music than just what fits on your iPod. We're talking the vast world of music on the Internet, plus your entire music library like iTunes®, that's stored on your computer. And, when you have more than one S5 in the house, you can play the same song in every room, perfectly synchronized, or let everyone listen to exactly what they want by playing different songs in different rooms. It's musical nirvana.

Control with your iPhone & more

Download the free Sonos Controller for iPhone on the App Store and take control of your music with any iPhone or iPod touch. Search for songs, browse for music and control the volume from anywhere. Of course, the S5 can also be controlled with the Sonos Controller for Mac or PC (included) and the dedicated Sonos Controller 200 (sold separately). Suddenly, you're the ultimate music DJ.

- Your music library.** Play your entire iTunes library stored on any computer.
- Free Internet radio.** Sonos comes with more than 100,000 radio stations, shows & podcasts.
- Music services.** Stream millions of songs and stations direct from the Internet — no computer required.
